WORK EXPERIENCE

3D Generalist - Primetrace Labs

Jan 2025 - Present

- Developed an AI-driven virtual companion integrating conversational systems with interactive gameplay mechanics. Designed and implemented core engagement systems including feeding gameplay, touch interactions, and adaptive user experiences. Produced and integrated 3D character assets, including rigging, facial expressions, animation sequences, and interaction-driven behaviors to deliver a lifelike and emotionally engaging experience.

3D Generalist - Freelance

May - Dec 2024

- Suta Bombay (Mumbai) - 3D Character development of the co-founders & compositing 3D animation on real footage for a store launch.
- The Eyewear Project (Goa) - 1300+ Eyewear product renders for their website.
- Hrutul Patel (Ahmedabad) - Visuals for Youforia Show, theme based 360 degree immersive audio visual concert.
- Soul Jams (Bangalore) - Developed 3D Iconography for rebranding following the brand guidelines.
- Besodetres (Tulum) - Spearheaded the brand identity and visuals for label launch for a techno artist duo.
- Visual Jockey (Goa) - Performed parametric audio reactive visuals effects and 3D animations for techno music event at Diaz, Goa

3D Technical Artist - Metabrix Labs

Jan - Aug 2024

- Developed and maintained a customizable, shape-key driven body mesh system for male and female avatars, enabling diverse body types, skin tones, outfits, and animations within an AI-powered 3D avatar generation platform.

Character Technical Artist & 3D Generalist - Fitmint

May 2023 - April 2024

- Developed and maintained a 3D avatar system for Fitmint, a crypto-based fitness app. This involved user onboarding with customizable avatars featuring diverse skin tones, facial features, hairstyles, and outfits.
- Integrated 3D assets with varied app use cases, including power-ups and UI overlays, optimized for performance within a 3JS framework and rendered as a web view within the app.
- Collaborated closely with developers to ensure seamless integration. Additionally, contributed to social media and website content, including engaging posts, promotional videos, and Instagram Reels featuring 3D animations.

ABOUT

Hailing from Kerala, India. I love visuals, cloud gazing and speculating future scenarios. I aspire to be a future synthesist and work at the intersection of Tech and Design.

AWARDS

01 Winner
Titan Nvisage 2.0 - 2019

02 Finalist
Titan Nvisage - 2018

03 Finalist- IndiaSkills 2018
Regionals in Cabinet Making.

04 All India Rank 2
National Institute of Design Entrance - 2017

SKILLS

- 3D & Digital Design**
 - NURBS/ Mesh/ Parametric Modelling
 - UV Optimization & unwrapping
 - Texturing
 - Rigging & Animation
 - 3D Rendering
 - Game Design
 - AR/VR
 - Motion Graphics
 - Video Editing
 - Motion Tracking
 - Facial Mocap
- Soft Skills**
 - Design Research
 - User Research
 - Conceptualization
 - Communication
 - Teamwork
 - Problem Solving
 - Adaptive

WORK EXPERIENCE

Eyewear Designer, XR & - Lenskart Game Designer

Mar 2022 -
April 2023

- I designed 50+ eyewear models across multiple collections, including the Masaba X John Jacobs line, utilizing a diverse range of materials and aesthetics.
- I transitioned to an experimental role, developing AR media, including a tap-to-play 3D game for children. This mobile-optimized game, launched via QR code, seamlessly integrated with a related eyewear collection and leveraged 3JS and WebGL for optimal performance.

Industrial Designer - Titan Company

Mar - Sept 2021

- Graduation Project on watches, designed a parametric system for the personalized watch design and purchasing, featuring innovative features such as user-defined case shapes and size, image embossing on dial, laser etching, and a time-dependent mirrored message revealed on the hour hand.

Industrial & Graphic Designer - Hecoll

Nov - Dec 2021

- Developed and designed a range of COVID-19 protective products utilizing their anti-viral cloth, including face masks, headgear, and school uniforms, completed with packaging and a dedicated exhibition stall for the 2020 Hitex Health Expo in Hyderabad.

Industrial Designer - DesignFlyOver

May - June 2019

- Summer internship where I designed premium-range headphones for Zebronics, exploring innovative folding mechanisms
- Developed a range of shampoo and conditioner bottles.

EDUCATIONAL HISTORY

National Institute of Design (2017 - 2022)

CGPA 7.0/10

Bachelor's in Industrial Design Specializing in Product Design

Arya Central School (CBSE), Trivandrum (2017)

93.8 %

Christ Nagar(CBSE), Trivandrum (2015)

CGPA 10/10

SKILLS

• Softwares

- Unreal Engine 5
- Character Creator 4
- Iclone 8
- Rhinoceros 3D
- Grasshopper
- Keyshot
- Blender
- Adobe Substance Painter
- Adobe After Effects
- Adobe Photoshop
- Adobe Illustrator
- Adobe InDesign
- TouchDesigner
- Resolume Arena
- Figma

• Prototyping & Physical Design

- Rapid Prototyping
- Sketching
- Painting
- Sculpting
- Mechanisms
